

BINGO ACTIVITY (CLASS II)

On 6th Aug, 2018, an activity ‘ Bingo Activity’ was organized for students of Class II. In this activity, a list of 15 describing words were written on the board and students were asked to write any five words from the given list. Then, one by one teacher chose and spoke a word (randomly) from the list of words and the students who had written the same word in their list were striking it off saying ‘Bingo’. Thus, the one who could strike off all the five words in his/her list was declared to be the winner.

Thus, this fun filled activity, lead to reinforce the concept of describing words among the students.
