

COLLAGE MAKING ACTIVITY

On 20th April, 2019, 'Collage Making Activity' was conducted for the students of class II.

Students brought wrappers of various cleanliness products used by them for maintaining their personal hygiene like: wrapper of soaps, toothbrush, ear buds etc. They were called in groups to paste the wrappers on the chart to make a beautiful collage out of it.

Thus, the activity enhanced the knowledge of students about different brands of cleanliness products being used by them and made them aware of the importance of maintaining personal hygiene.
