

COLLAGE MAKING ACTIVITY

On 7th April, 2018, 'Collage Making Activity' was conducted for students of class II. Students brought the wrappers of various things that are used for maintaining personal hygiene and cleanliness like: wrapper of a soap, toothpaste, sanitizer, ear buds etc. They made beautiful collage using these wrappers.

Thus, the activity enhanced their knowledge regarding the various things that we use to keep us clean and to stay healthy by using such things.
