

INTRODUCTION OF COLOURS

(4.4.18 TO 6.4.18)

At D.A.V. we believe that learning is more meaningful when it is combined with hands-on and real life experiences.

Learners comprehend better when they are given an opportunity to learn through activities like play-way method, hands on experience, experiential learning. In order to introduce Primary Colours, various fun-filled tripod activities namely Finger Printing with Red Colour, Cotton Dabbing with Blue Colour, Finger Painting with Yellow Colour were planned for the learners of L.K.G.

Here is a glimpse of the children enjoying the activities.
