

# Fun Filled Activities

*“Tell me and I forget.*

*Teach me and I may remember.*

*Involve me and I learn”*

To foster the holistic development of our learners, fun filled learning and innovative teaching is a regular feature of D.A.V.

Various activities were designed to promote hands-on learning as it is well known that hands-on experience is the key to build inquisitive learning tendencies.

Many activities were planned for the little ones such as Beading, Lacing, Paper Crumpling, Clay Play etc.

It was a great opportunity for fine motor development of the learners.
