

### **Float and sink (UKG)**

**Float and sink was a science based experiment carried out by the teacher with the intention to take up the hands on experiment task by the children of UKG during the week starting from 09.07.18. The children witnessed as well undertook the experiment and shared the content learned with their parents at home. Various things namely a ball, banana , leaf , twigs etc. were shown to the children and the experiment was taken up twice or thrice to recapitulate the key points.**
