

Guess and Tell (CLASS –I)

On 11th April, 2019 an activity named ‘Guess and Tell’ was organized in the class to make the students understand the functions of various sense organs. For this activity, a magical box containing different objects like flower, silk cloth, glitter sheet, whistle, sugar, salt, lemon, coffee powder, scented marker pens etc. were kept in the box. Children wore eye masks and took turns to feel, hear, smell and taste different objects. Thus, it proved out to be a very interesting and fun filled activity which lead to stimulate their various sense organs and provided them a hands on experience.
