

HEALTHY PLATTER (CLASS - II)

On 18th July,2018, an activity 'Healthy Platter' was organized for Class II. The students brought the pictures of various food items. Then, according to the concept taken up in class, they segregated the pictures of food items according to various types of food like energy giving, body building and protective food. Then, the pictures were pasted on a big plate cut-out under the respective types.

The children enjoyed the activity thoroughly and it lead to reinforce the concept in a very interesting way among the students.
