

'Math Is Fun'

Learning Math is really fun. Playing with numbers and shapes not only makes children sharp but also prepares them for life by developing their problem solving skills and fighting spirit. The 'Math Is Fun' is an inter-house competition which tests the Math skills of the students in a fun way. The First Round of the competition was held on 17 July in which students attempted a variety of mental ability questions. The Second Round was held on 5 August. In the second round, the final participants solved a math puzzle. The competition was won by Vedaant of Class 3 from Jyoti House, Jagrat of Class 4 from Preeti House and Shwetank of Class 5 from Jagriti House.
