

PICK THE STICKS (CLASS - II)

In order to recapitulate the concept of addition , on 31st Jul,2018, an activity ‘Pick The Sticks’ was conducted for students of Class II. For this activity, they were provided with the straws as sticks. They were supposed to represent the two digit numbers given for addition by picking up correct number of straws and then adding the numbers shown by straws to give the answer.

Thus, this fun filled activity lead to reinforce the concept among the students in a very interesting way.
