

SLOGAN WRITING

On 1 May the students took part in a **Hindi Slogan Writing** activity as a part of the Hindi Month celebration. The students of classes III to V wrote slogans on a wide range of topics related to the environment such as SAVE WATER, GROW TREES and REDUCE POLLUTION. It was a mass activity in which the students made pictures related to the given topic and wrote thought provoking slogans. Their apt slogans not only highlighted the ecological issues facing our planet at present but also offered solutions. It was an enjoyable activity which helped to create awareness about these issues in a fun and creative way.
