

ASSEMBLY ON WORLD BOOK DAY

WORLD BOOK DAY is an annual event organized by the **UNESCO** as a worldwide celebration of books and reading. It is celebrated on 23 April all over the world to promote the habit of reading. To mark this important occasion the students of Class V E presented an informative and inspiring assembly on the topic

‘WORLD BOOK DAY’.

The students shed light on the genesis of this day and its significance. The magic of reading books was beautifully presented through the recitation of the poem '**I Opened A Book**'. The students highlighted the magic of reading by telling how books take us on amazing journeys to unknown lands, they give wings to our imagination and courage to our heart, they make us believe and give us hope but most important of all they open our minds and let us see the world and help us to grow. The whole essence of the assembly may be summed up in the thought for the day '**A child who reads will be an adult who thinks**'. It not only spoke about the importance of reading books but also inspired the children to embark on the magical journey of reading books. At the end, the **WORLD BOOK DAY** pledge was administered. All the students took the pledge to read a book every day, to take good care of books and to share books with their friends.
