

# PLASTIC BOTTLES WALL HANGINGS

Decorating our homes and workplace during festive seasons not only makes it appealing but also spreads cheer. The students of class 4 made beautiful wall hangings using old plastic bottles. They made creative use of waste materials like old bottles, cloth hangers, colourful strings/straws, bottle caps, mirrors etc to make wall hangings. They used acrylic colours, decorative strings, glitter paper etc to beautify their creations. Each wall hanging was a testimony to their creativity and sense of aesthetic beauty.
