

## WORK EDUCATION

In August the students did many fun filled activities in their work experience class. As a preparation for our 72<sup>nd</sup> Independence Day celebration, they made tri-colour badges by doing tearing and pasting and fan folding. This activity infused a patriotic feeling in them and it would help to inculcate a respect for our nation and the spirit of freedom in the students. They wore these badges with the slogan 'Mera Bharat Mahan' with pride on 15<sup>th</sup> August. After celebrating the freedom of our nation it was the turn to celebrate the spirit of brotherhood and oneness. The children made beautiful Rakhis with colourful ribbons, glitter , beads and other decorative material. In the last week of August the children made beautiful cards with heartfelt messages for their beloved teachers. It was an activity that allowed the creativity and imagination of the children to be expressed. They presented these cards to their teachers on Teacher's Day. Besides these activities, the children also made attractive photo frames using ice creams sticks. Thus August month was full of artistically creative activities which kept the children fruitfully engaged.
