

BRAND CONNECTION (CLASS II)

To create hygiene awareness among the students , on 02 May, 2018, 'Brand Connection' activity was organized for Class II. The students were provided with slips of different products used for cleanliness like soap, shampoo, hair oil and few other slips with their brands like Pantene, Parachute, Dove etc. Then, they were supposed to find and make a connection between the brand name and its related product. After making their groups for the brand and the products, they spoke about the usage of that particular product in maintaining our personal hygiene.
