

REGARDING HIGH SPEED DUST STORM WARNING:

As we are all aware, high speed dust storms might hit Delhi and neighboring areas in the next few days.

*You are all requested to keep windows securely bolted at all times to avoid glass breakage and falling down (which happens often and is a serious hazard to life and limb).

*Please check and remove/tie or weigh down anything lying out in the open (courtyards/terraces/entrance passageways, etc.) so that these things do not fly off and damage property/vehicles/injure people in the vicinity.

*Please remove flower pots, etc., from parapets and window sills as these can fall down and cause serious accidents and damage.

*Switch the main switch off.

*No electronic gadgets to be charged during thunder storm. *Don't call or receive anyone's call during that time.

*Arrange candles and matches before hand.

*We can keep the basic stock of eatables including milk.

Let us be aware and sensitive to avert serious consequences that can result because of our lack of awareness and carelessness.

Wishing Safety To All
