DAV PUBLIC SCHOOL
 SECTOR-49 UPPAL'S SOUTHEND, GURUGRAM
 ANNUAL PLANNER
 (2024-25)
 CLASS- PRE-SCHOOL

The early childhood education has been recognized as the most important phase in our child's life due to rapid pace of development taking place at this stage of life. A qualitatively rich environment is therefore most essential in these years to optimize a child's overall balanced development and help him/her to realize the full potential. Keeping this in view we aim at making the pre-school stage wholly and comprehensively child oriented which is different from tradition based approach. It has been our endeavor to use the immediate environment and the environmental assets to enable the child to associate what was unknown to him with the known and make the new things a part of his life.

We have broadly devised an Annual Programme and some of the suggested activities to help your child achieve the learning objectives set up for Class Nursery. For exact details you may refer to the Monthly Plan which will be uploaded on school's website on monthly basis.

I. LANGUAGE SKILLS- The main goal of the language curriculum is to enable the child to communicate with other people. There are four major skills that a child should have in order to communicate.
